A screenshot of a text editor window titled "0x00-Python\_Introducción.py - C:/Users/LENOVO CORE I5/Desktop/Inform...". The window contains three lines of Python code: `print("Hola Mundo")`, `print("Mi nombre es Diana Katerin Salazar Ortiz")`, and `print("Hoy es martes 27/07/2022 y son las 7:50")`. The code is written in a green monospace font. A black arrow originates from the bottom left of this window and points towards the IDLE Shell window below.

```
print("Hola Mundo")
print("Mi nombre es Diana Katerin Salazar Ortiz")
print("Hoy es martes 27/07/2022 y son las 7:50")
```

A screenshot of the IDLE Shell 3.10.5 window. The shell displays the output of the Python script executed from the file above. The output consists of three lines: "Hola Mundo", "Mi nombre es Diana Katerin Salazar Ortiz", and "Hoy es martes 27/07/2022 y son las 7:50". The prompt `>>>` is visible at the beginning of each line. The window title is "IDLE Shell 3.10.5".
